

GEORGIA CLEAN DAY 2006

WASTE PESTICIDE COLLECTION PROGRAM

The Georgia Department of Agriculture Presents

DATE:	Wednesday, August 30, 2006
TIME:	9:00 a.m. until 3:00 p.m.
LOCATION:	North Metro Technical College 5198 Ross Rd. Acworth, GA 30102

PROGRAM INTRODUCTION

Pesticides in leaking containers or disposed of improperly may cause environmental damage by contaminating water supplies or harming people and wildlife. Some pesticides that have been used in the past are now in need of proper disposal. This program gives everyone an opportunity to discard old, unusable, or cancelled pesticides. No fees are charged for participation in this program, and all accepted materials will be turned over to a hazardous waste contractor for disposal.

PROGRAM ORGANIZATION

The Georgia Department of Agriculture, through funding provided by the Georgia General Assembly, is charged with organizing and administering this program.

SERVICE AREA

Individuals wishing to participate in the program must fill out the enclosed pre-registration form and return it to Mr. Greg Bowman with the UGA-Bartow County Extension Office. This information is necessary to plan for the collection, transportation, and disposal of the waste pesticides collected. If you have specific questions about the program contact Mr. Steve Cole with the Georgia Department of Agriculture at (404) 656-9373.

PROGRAM BENEFITS

This is an excellent opportunity to dispose of pesticides that you have been holding because you had neither an economical nor legal means to dispose of them. Canceled and suspended pesticides by definition cannot be used and must be disposed of, often as hazardous waste. Some reasons to participate in this program are:

1. No disposal fees for those who participate in the 2006 program.
2. The disposal contractor secures all permits and approvals.
3. Disposal contractor takes possession of the waste and thereby becomes the generator.
4. Participants are not directly involved with state and federal regulatory agencies.
5. All materials eligible for destructive incineration will be destroyed.
6. Minimization of ongoing liabilities from continued storage of these wastes on your property.

ELIGIBLE PESTICIDES

All canceled, suspended, unusable and unwanted materials classified as pesticides may be turned in for collection. Please refer to the brief list below to determine what types of materials will or will not be accepted at the event. Please list all pesticides to be turned in on the pre-registration form in order to estimate types and volumes to be collected. Any pesticides without a brand name, trade name, or active ingredient on the label may require analysis to determine the contents. Please label all unidentifiable pesticides as "unknown" on the pre-registration form.

ACCEPTABLE MATERIALS

**Insecticides
Growth Regulators
Fungicides
Harvest Aid Chemicals
Nematicides
Bactericides
Herbicides
Miscellaneous pesticides
Probable pesticides**

EXCLUDED MATERIALS

**Compressed Gases
Solvents
Paints
Antifreeze
Motor Oil
Explosive Materials
Fertilizers or Nutrients that are
neither hazardous or do not
contain pesticide admixtures**

PRE-REGISTRATION HELPS PLAN FOR YOUR PARTICIPATION

- **PLEASE LIST ALL PESTICIDES YOU PLAN TO BRING TO COLLECTION SITE ON THE PRE-REGISTRATION FORM.**
- **ITEMS NOT REGISTERED WILL BE REFUSED AT THE COLLECTION SITE.**
- **EMPTY CONTAINERS OR RINSATES WILL NOT BE ACCEPTED.**
- **NO COMPRESSED GASES CAN BE ACCEPTED. (METHYL BROMIDE, CHLORPICRIN, VIKANE, ETC.).**

PROGRAM COLLECTION

Participants will deliver their waste pesticides to the collection site where the disposal contractor will unload them. There are no forms to sign and you do not have to exit your vehicle. The contractor will accept sole responsibility for the waste and will provide handling, packaging, and disposal of the waste pesticides at the collection site.

**PLEASE COMPLETE AND RETURN PRE-
REGISTRATION FORMS TO THE BARTOW COUNTY
EXTENSION OFFICE BY AUGUST 25, 2006**

Please Send or Fax Forms To:

**Mr. Greg Bowman
Bartow County Extension
320 West Cherokee Ave., Rm.112
Cartersville, Georgia 30120**

FAX (770)386-3488

TRANSPORT TIPS

No safety precautions and protective measures can be suggested that totally eliminate risks. However, here are some suggestions that may assist you in minimizing exposure as you work with waste pesticides.

**IF YOU HAVE A SPILL:
CALL 1-800-241-4113 FOR EMERGENCY ASSISTANCE**

FOR TRANSPORTING WASTE MATERIALS:

1. Inspect all pesticides to see that they are securely packaged. Only transport containers that are securely closed.
2. Line the storage area of the transport vehicle with plastic sheeting to contain any spillage that might occur and therefore simplify cleanup and decontamination.
3. Assure all labels are securely attached. This is important for disposal of these materials.
4. Arrange containers in your vehicle so that they are braced to prevent shifting which may result in container damage and/or leakage.
5. All containers should be kept dry during transport. Loads in open vehicles such as pick-up trucks should be covered in the event of rainfall.
6. Do not transport pesticide waste in a manner that will allow fumes from those wastes to enter the passenger compartment of the transportation vehicle.

DRIVE CAREFULLY. You are responsible for any spillage, damage, subsequent cleanup and restoration that might occur while you are transporting the wastes, whether the accident is your fault or other's. The State and its contractor are not responsible for any spillage that occurs before the contractor at the collection site accepts the waste.

HANDLING WASTE MATERIAL

1. Inspect containers. If, upon inspection, you have reason to suspect that the container will tear or rupture when moved, do not attempt to move or load the container for transport. Come to the collection site without it and we will provide assistance.
2. Wear the protective clothing and protective equipment (goggles, gloves, respirator, etc.) described on product labels when handling pesticides.
3. At a minimum, wear a long sleeved shirt buttoned at the wrist, a pair of chemical-resistant gloves, preferably a chemically resistant apron, rubber boots, goggles and a hat.
4. Have spill control materials available. For example, a 10-pound bag of commercially available safety absorbent, a shovel and a container for spilled material collected with the absorbent and contaminated soil may be useful in control and cleanup of a spill involving a small amount of material. Bring any spilled materials with you to the collection site for disposal.

Directions to North Metro Technical College

5198 Ross Road

Acworth, GA 30102

North Metro Technical College is located approximately 30 miles North of Atlanta. The campus is conveniently located just off Interstate Highway 75.

- Take Interstate Highway 75 to exit 278 (Glade Road)
- Go East on Glade Road
(if you were Northbound on 75, then turn right onto Glade Road, if you were Southbound on 75, then turn left onto Glade Road)
- Travel along Glade Road for only a short distance and then turn right onto Apache Drive
(just past a BP and Chevron station on your left)
- Go 1/2 mile on Apache Drive to a 4-Way Stop.
- North Metro Tech will be on your right just past the intersection.
